Woodward of Danielson. The following jury was chosen to try the case: Martin H. Waterhouse, Willimantic; George J. Putnam, Arthur E. James, Ashford; Frank Smith, Canterbury; James Lewis, Chaplin; George W. Winslow, Killingly; O. Haskins, Scotland; Henry M. Evans, Brooklyn; Charles H. Buell, Eastford; Charles E. Burnham, Hamden; Lawrence Keegan, Jr., Thompson; Michael White, Woodstock.

Theodore Everage, employed in one of the stores broken into, testified to discovering the break and said that between \$25 and \$35 was missing. He was cross examined briefly by Attorney Woodward. Charles Attelee, owner of the grocery store, told of going to the store and finding the cash register empty and of missing cigars and cigarettes. He was also cross examined by attorney for the accused. John O. Bassette, a constable in Danielson, told of having Blanchette arrested after having searched the room occupied by the defendant and finding cigars and cigarettes hidden in the room. Albert Cloutier of Brooklyn testified to having been asked by Blanchette to get 200 pennies changed into bills for him, which Cloutier did. Langevin, a companion of Cloutier, told of the occasion when Blanchette asked Cloutier to get the pennies changed for him. At this point copy of the record of Blanchette's conviction in the superior court in 1915 for a similar charge was introduced by the state.

Mr. Bassette, recalled, said that the defendant in the present case is the one mentioned in the record. The state rested its case at this point and Wilfred Blanchette, the accused, was called to the stand. He told of his movements, whereabouts on the night the two stores were broken into. He accounted for the cigars and cigarettes found in his room by saying he won them at shaking dice and the pennies he had saved. He was sharply cross-examined by Attorney Seale and denied knowing anything of the break when he asked the Cloutier boy to change the pennies for him. He also denied entering or stealing anything from the stores. The father and mother of the accused testified to his being home on the night the stores were entered and were cross-examined briefly by Attorney Seale. Arthur Boneau, Simon Devia and Benjamin Morey all testified to having shaken dice with the accused and of Blanchette having taken cigars and cigarettes for his money.

Albert H. Steinbus, who runs a general store, told of Blanchette buying cigarettes from him on two occasions, but on being cross-examined by Attorney Seale, said that the accused had been into his store in 1915 in Mansfield Center cemetery. Killourey Bros. had charge of the funeral arrangements.

A number of Willimantic people will be interested to learn that word was received in town Tuesday night of the marriage of Benjamin F. Maltby and Miss Susie Holt at Newcastles, New Brunswick, N. J. The marriage was solemnized at the residence of the bride's niece, Mrs. Maher, the ceremony being performed by Rev. J. P. Pinerton. Mr. Maltby is one of the leading business men in Newcastles and his bride is well remembered by a number of friends in Willimantic. She was a well known nurse here a number of years ago, being located at Dr. Mason's hospital, formerly on Prospect street, which has since been wrecked.

The meeting held Tuesday night in the chamber of commerce rooms for the benefit of all local returned men of the military and naval service was a distinct disappointment insofar as the attendance of service men was concerned. There were but very few present. The meeting was presided over by James P. Twomey and was addressed by Charles E. Holmes of Hartford who had come here for the express purpose of explaining the government's war risk insurance policy, issued to the service men during the war, and also to explain the methods of changing the policy to the permanent plan. A number of local insurance agents were present and Mr. Holmes in his talk urged them to do all they could to persuade the service men to keep this insurance in force and not give it up or let it go by default. Mr. Holmes quoted figures and facts to prove that this policy issued by the government under the most unfavorable settlement would pay the beneficiary of the insured over \$250 for every \$1 paid. The ultra-favorable settlement would pay the beneficiary over \$1000 for every \$1 paid by the insured. Under these and other conditions existing it would seem unwise to say the least for any service man not to change his policy to the permanent plan offered which will enable him to obtain this insurance at over 25 per cent. less cost than in any private company. Mr. Holmes said that without a doubt the war risk insurance policy given by the government is the greatest and best thing of its kind ever offered to mankind.

At the May meeting of the Welfare Bureau Monday night the report of the visiting nurse was read. The bureau is presently waiting for a secretary, and while the matter of a new secretary was discussed, no definite action was taken at the meeting. Lieut. Arthur E. Bugbee and Private Donald E. Crane recently returned to their homes in this city, having received their final discharge from the service. Both men have seen service for over a year in France; the former with the English army as a physician and the latter in aviation department.

At the meeting of Willimantic camp No. 55, Woodmen of the World, it was voted to hold the services of the unveiling of the wooden Memorial at the Willimantic cemetery Sunday, June 8. State Manager A. C. Garvin of New Haven will make an address. The memorial, which is the first of its kind erected by the local organization, is placed over the grave of Charles H. Perkins.

Not Preved was discharged from St. Joseph's hospital this week and

reports of all teams are not yet in, so that it is impossible to make this award yet.

The May meeting of the Willimantic Women's club was held in the club rooms Tuesday afternoon. It was the last meeting for this season and was largely attended. Over 70 members sat down to a luncheon, served by the hospitality committee which preceded the regular meeting, after which a social hour was enjoyed. Miss Alice E. Leavens of Boston addressed the meeting. Miss Leavens was a member of the original Smith college relief unit and spent a number of months in France with the unit in refugee work. Her address dealt mostly with this work and her experiences proved most interesting to her audience.

The speaker told of how over 2500 villages in northern France were practically obliterated by the Germans and of the devastation wrought by them as actually seen by her. She impressed her hearers most forcibly with the great need of this refugee work in France and Belgium for years to come. It was the opinion of those present that Miss Leavens' address was one of the most interesting and inspiring talks that they had ever heard.

Why Lack of Iron Keeps Women Weak, Nervous, Fretful and Run-Down

While Plenty of Red Blood Rich in Iron Helps Make Them Strong, Healthy and Beautiful.

How Organic Iron—Nuxated Iron—helps Solve Problem of Supplying Iron Deficiency, Thereby Increasing the Strength and Endurance of Delicate Care-worn Women in Two Weeks Time in Many Instances.

Many a woman who ought still to be young in feeling is losing the old-time vim and energy that makes life worth living simply because her blood is thinning out and possibly starving through lack of iron. It is through iron in the red coloring matter of the blood that life-sustaining oxygen enters the body and enables the blood to change food into living tissue, muscle and brain.

In commenting upon the alarming iron deficiency in the blood of the average woman of today, Dr. George H. Baker, formerly Physician and Surgeon Monmouth Memorial Hospital of New Jersey said:

"What women need to put roses in their cheeks and the springtime of life into their hair is not cosmetics or stimulating drugs, but plenty of rich red blood. Without it no woman can do credit to herself or to her work. Iron is one of the greatest of all strength and blood builders and I have found nothing in my experience so effective for helping to make strong, healthy, red blood as Nuxated Iron. From a careful examination of the formula and my own tests of Nuxated Iron I feel convinced that it is a preparation which any physician can take himself or prescribe for his patients with absolute confidence of obtaining highly beneficial and satisfactory results."

Dr. Ferdinand King, a New York Physician and Medical Author says: "I have

A. and was stationed at Fort Terry when the company was changed to the 35th. He was then transferred to Camp Mills, Long Island, where he was in the company and went over there. He left the states March 18, 1918, and a month from the day he left was on his feet in the Orient in a train of cars. He saw service with the 53d and then with the 42d regiment. Later he was transferred to the 42d regiment and was with a detached service as despatch messenger carried with the First army division. While engaged as a despatch rider he saw much of France and had many narrow escapes.
